

Claremont Colleges BRAINEATERS

Located in sunny Southern California, just east of LA, the Claremont Braineaters represent not one, but five different schools united by the Claremont consortium. We have a range of players and talent including environmentalists from Pomona, IR majors from Claremont McKenna, hippies from Pitzer, and physicists from Harvey Mudd

The Braineaters have come a long way from their humble beginnings. After several years of barely missing Division I nationals, the Braineaters made it their goal in the 2010-2011 season to win Division III nationals. This is exactly what they did, going 24-1 on the season, including an 11-9 victory over St. John's in the finals of Division III nationals.

If interested, don't hesitate to email a captain!
