**Website:** <http://www.ketteringultimate.com>

#### Who We Are

Kettnetic Thunder is a team of brilliant minds and determined athletes who are making their mark on the sport of Ultimate. The team is all about performance, professionalism, and fun. With a team of mentally sharp engineers and inventive entrepreneurs, there's nothing this team can't do!

#### What We Do Differently

Kettering University provides a unique and highly effective way for students to get ahead in their career. The Co-op program pairs you with the industry / company that you are interested in, where you actually work as an employee while you attain your degree. Students are split in A&B Sections and rotate between work and school terms. However, the team still competes in the USA Ultimate College Season and Series just like any other university!

#### Team Values and Goals

- Excellence, Quality, Innovation.
- Maintain strong team image, professionalism and leadership
- Push the boundaries in Ultimate team standards
- Invent new strategies, training methods, and Ultimate concepts.
- Stay in shape, train hard, but most importantly, HAVE FUN!
